EXPERIENCE

The Daily Targum — *App Developer*

New Brunswick NJ, June 2019 - PRESENT

- Designed, developed, and deployed The Daily Targum app for both iOS and Android using React Native.
- Used analytics to collect data on how the app is being used.
- Working with a backend developer to implement a GraphQL API.

Rutgers Enterprise Application Services — *App Developer*

New Brunswick NJ, May 2019 - PRESENT

- Working with a software development team to overhaul the university app and online student dashboard.
- Mocked up the app redesign using Sketch as well as creating working demos using React Native and Flutter.

Mathbrainius — *Full Stack Developer*

Princeton NJ, September 2015 - May 2019

- Oversaw the development of video-based interactive math problems.
- Managed other developers and used Github Projects Management to coordinate the development pipeline.
- Coordinated the development of the Javascript core content of the project, which consisted of many interactive components.
- Managed all Heroku apps and pipelines as well as implementing continuous integration using Heroku CI and Travis CI.
- Managed GitHub organization and repositories.
- Managed the DNS records for the company using Cloudflare.

Smarter Agent Mobile — *Automated App Testing Engineer*

Collingswood NJ, June 2014 - May 2015

- Participated in SCRUM meetings and learned how to better coordinate work with others.
- Used Selenium to implement regression testing across multiple real estate apps.
- Used Jenkins continuous integration server to run regression tests.
